# Alicia, put your laser safety program on the right course.

LIA is committed to keeping the workplace safe from hazards associated with lasers, which is why we have established an Alliance with the Occupational Safety and Health Administration (OSHA) to help achieve these goals. Our Laser Safety Officer (LSO) Training Courses are based directly from the ANSI Z136.1 *Safe Use of Lasers* standard and meet all LSO training requirements outlined by ANSI, OSHA and ACGIH.

Developing and implementing a successful laser safety program is a top priority for you and your organization. At LIA, our goal is to help you achieve that by offering the most comprehensive laser safety training programs for LSOs. **LIA writes the standard for laser safety - get your laser safety program compliant with training straight from the source!**
